

McGill AirClean LLC

SERVICE DIVISION

PRODUCT AND SERVICE SOLUTIONS

McGill AirClean LLC has been serving industry since 1951. We manufacture electrostatic precipitators, fabric filters, regenerative thermal oxidizers, and spray dry scrubbers. Our Service Division can provide a full range of products and services to meet your air pollution control system needs.

We are more than just a parts supplier. We provide complete in-house engineering design capabilities, including mechanical, civil, electrical and chemical engineering disciplines. Our highly trained technical staff of engineers can help you solve your equipment, maintenance, and process-related problems.
